

Funducation

IDK YET

Problem

- Funducation tries to help with Sustainable Development Goal #4: Quality Education, specifically with its goal to upgrade the facilities of public schools in the Philippines

Description

- Funducation is a crowdfunding web app that helps schools get the resources they need to improve its facilities.
- Through the app and with the help of government agencies if possible, principals of public schools will be given an account where they post about their school's greatest needs.
- Each crowdfunding project shows the allocation of funds.
- People can sign up as donors to send money to the schools.
